

Beginning Word Problems Command Cards
Beginning Addition Cards Set 2

Directions for Use

- 1 Print command cards and answers.
- 2 For control: it is recommended that you record the answers on the back before laminating. However, you can just use control card supplied for child to check answers.
- 3 Laminate for durability.
- 4 Child reads each card one at a time and works out the answer to the problem.
- 5 Record answers on separate sheet of paper/ or with wipe-off marker on the card, if card is laminated.
- 6 Child can check work by flipping over card/ check with control card.

** for beginners, it is a good idea to model thinking through a word problem aloud so child can see your thought process as you read through the problem.

<p style="text-align: right;">WP1</p> <p>Ben had 3 caps. Jake had 3 caps. How many caps did they have altogether?</p>	<p style="text-align: right;">WP2</p> <p>Todd made 3 cards. Bev made 5 cards. How many cards did they both make?</p>
